# About our Autism Learning Center

**Our Autism Learning Center provides continuity of** routines for children already attending a school program during the year, and an initial introduction to a structured school environment for those not currently enrolled in a program. The focus will be on maintaining and developing constructive and imaginary play, following a visual schedule, and addressing sensory needs, peer interaction, social skills, positive behaviors, communication and motor skills, all while enjoying many fun summertime activities. The teachers will incorporate their knowledge of therapeutic and behavioral learning in the natural environment.
